

Sigh...

Ya walked in
their gallery
of all places and
wrecked works,
s'enough said.

There's
reasons to say
it's never good
to fandango
with them.

It's true
that Lapis
wasn't in
that gallery.
But...

No wonder.
The lass
sent you a
gift, too.

...Lapis sent
me something?

You sure
you set the
refraction
rate
correctly?

All I've
done was set
the intensity
to three-
point as
you ordered.

What was
the maximum
number of
rifts
observed?

Twenty-
six.

0:37:13

Let's push
that number
up to 40.

I could
raise it,
sure.

But that will
most certainly
worsen the
damage.

Are you
sure the
intensity
calibration
was correct?

It was
properly at
three-point;
it wasn't
the problem.

soon.

Wouldn't
that be a

How many
rifts are you
planning
to make,
anyway?
40? 50?
